UNITED STATES DISTRICT COURT
 EASTERN DISTRICT OF WASHINGTON

ELF-MAN, LLC,)	Case No.: 2:13-cv-00115-TOR
)	
Plaintiff,)	PLAINTIFF'S <i>EX PARTE</i> MOTION TO
)	EXPEDITE DISCOVERY
v.)	
)	
DOES 1 – 29,)	April 22, 2013 (if expedited hearing denied)
)	Without Oral Argument
Defendants.)	

Pursuant to Federal Rules of Civil Procedure 26 and 45, Plaintiff Elf-Man, LLC hereby moves this Court *ex parte* for an order permitting Plaintiff to take limited discovery to ascertain the identities of Defendants designated in Exhibit 1 to the Complaint prior to the Rule 26(f) conference for the reasons stated in the following legal argument. For the reasons set forth in the accompanying motion to expedite hearing, Plaintiff also seeks expedited consideration of this motion pursuant to LR 7.1(h)(2)(C).

LEGAL ARGUMENT

I. INTRODUCTION

Plaintiff is the registered author of a motion picture titled *Elf-Man*, Copyright Registration PA 1-823-286. Defendants are a group of BitTorrent users or peers whose computers are interconnected and used for illegally copying and distributing Plaintiff's motion picture to each other and others. Plaintiff is suing

1 the various Doe Defendants for using the internet, specifically the BitTorrent file
2 distribution network, to commit copyright infringement. As Defendants used the
3 internet to commit infringement, Plaintiff only knows Defendants by their Internet
4 Protocol (“IP”) address. Defendants’ IP addresses were assigned to the
5 Defendants by their respective Internet Service Providers (“ISP”). The ISP uses
6 the IP address to specifically identify each person using the internet through the
7 ISP to transmit and receive data. Publicly available data allows Plaintiff to
8 identify the specific ISP Defendants used, and even often the city where the
9 Defendants reside, as identified in Exhibit 1 of the filed Complaint. But as the
10 ISPs control the access to the internet by the individual Defendants, only the ISPs
11 have the records which tie each IP address identified as infringing Plaintiff’s
12 copyright to a specific Defendant. Without this information, Plaintiff cannot serve
13 the Defendants nor pursue this lawsuit to protect its valuable copyrights.

14 Accordingly, Plaintiff seeks leave of the Court to serve Rule 45 subpoenas
15 on the ISPs identified with the Complaint and any related intermediary ISPs. Any
16 such subpoenas will be limited to non-content subscriber account information such
17 as the true name, address, telephone number, and e-mail address of the Defendants
18 identified by the IP address in Exhibit 1 to the Complaint. Plaintiff will only use
19 this information to prosecute the claims made in its Complaint.

20 II. ARGUMENT

21 Federal Rule of Civil Procedure 26(d)(1) authorizes a court to permit
22 discovery before the Rule 26(f) conference upon a showing of “good cause” for
23 the party’s need for expedited discovery. *See, e.g., Renaud v. Gillick*, No.
24 06-1304, 2004 WL 98465, at *2-3 (W.D. Wash. Jan. 8, 2007) (analyzing the Ninth
25 Circuit standard of “good cause” and cases permitting expedited discovery);
26 *Semitool, Inc. v. Tokyo Electron Am., Inc.*, 280 F.R.D. 273, 276 (N.D. Cal. 2002)

1 (“Good cause may be found where the need for expedited discovery, in
2 consideration of the administration of justice, outweighs the prejudice to the
3 responding party.”).

4 Courts routinely allow discovery to identify “Doe” defendants. *See, e.g.,*
5 *Zembizia Film, Ltd. v. Does 1-66*, 2:13-cv-00308-MJP-RSL (W.D. Wa. Feb. 25,
6 2013); *Voltage Pictures, LLC v. Does 1 – 371*, 3:13-cv-00295-AA (D. Or. Feb. 22,
7 2013) and *Matot v. Does 1-5*, 6:13-cv-00153-TC (D. Or. Feb. 12, 2013) (leave
8 granted to subpoena any email service or internet service providers for such
9 further information as may be needed to specifically identify Doe defendants);
10 *Murphy v. Goord*, 445 F. Supp. 2d 261, 266 (W.D. New York 2006) (in situations
11 where the identity of alleged defendants may not be known prior to the filing of a
12 complaint, the plaintiff should have an opportunity to pursue discovery to identify
13 the unknown defendants); *Wakefield v. Thompson*, 177 F.3d 1160, 1163 (9th Cir.
14 1999) (error to dismiss unnamed defendants given possibility that identity could
15 be ascertained through discovery); *Cottrell v. Unknown Correctional Officers*,
16 1-10, 230 F.3d 1366 (9th Cir. 2000); *Gillespie v. Civiletti*, 629 F.2d 637, 642 (9th
17 Cir. 1980) (“where the identity of alleged defendants [are not] known prior to the
18 filing of a complaint . . . the plaintiff should be given an opportunity through
19 discovery to identify the unknown defendants”); *Equidyne Corp. v. Does 1-21*,
20 279 F. Supp. 2d 481, 483 (D. Del. 2003) (allowing pre-Rule 26 conference
21 discovery from ISPs to obtain identities of users anonymously posting messages
22 on message boards).

23 Courts consider the following factors when granting motions for expedited
24 discovery to identify anonymous internet users: (1) whether the plaintiff can
25 identify the missing party with sufficient specificity such that the court can
26 determine that the defendant is a real person or entity who could be sued in federal

1 court; (2) all previous steps taken by the plaintiff to identify the Doe defendants;
2 and (3) whether the plaintiff's suit could withstand a motion to dismiss. *Columbia*
3 *Ins. Co. v. Seescandy.com*, 185 F.R.D. 573, 578-580 (N.D. Cal. 1999).

4 First, Plaintiff can identify the missing parties with sufficient specificity: the
5 missing parties are the account holders of the specific IP addresses that Plaintiff
6 has specifically identified with the Complaint in Exhibit 1 to the Complaint.
7 Second, though Plaintiff has been able to identify much about each Defendant,
8 namely who they use as their ISP, where they are generally located and what
9 software they used to commit acts of infringement, Plaintiff has no means to
10 readily identify the Doe Defendants as named individuals. The ISPs have
11 procedures for revealing such information, but they require a subpoena as a matter
12 of course. Third, Plaintiff states a claim for copyright infringement. Specifically,
13 Plaintiff has alleged sufficient facts to support a plausible right to relief well above
14 any general level of mere speculation. *Bell Atlantic Corp. v. Twombly*, 550 U.S.
15 544 (2007).

16 Good cause clearly exists in this case because the internet service providers
17 used to commit the acts of copyright infringement are the only sources which can
18 supply the information necessary to identify the Defendants. As a further basis for
19 good cause, it is recognized that but for the expedited discovery there will be
20 irreparable harm to the copyright owner. *See UGM Recordings, Inc. v. Doe.*, No. C
21 08-1193 SBA, 2008 WL 4104214, at * 4 (N.D. Cal. Sept. 3, 2008) (finding good
22 cause for expedited discovery exists in internet infringement cases where a
23 plaintiff makes a prima facie showing of infringement as there is no other way to
24 identify the Doe defendants and there is a risk an ISP will destroy its logs prior to
25 the conference.).

26 If Plaintiff is denied the ability to subpoena the ISPs then the identity of the
27 PLAINTIFF'S *EX PARTE* MOTION – Page 4
28 TO EXPEDITE DISCOVERY

1 infringers will remain hidden and Defendants will be able to continue to freely
2 infringe Plaintiff's copyrights and commit other acts of theft with impunity. As
3 such, it is clearly in the interest of preserving justice and order that this Court
4 should grant Plaintiff's motion. *See Semitool, Inc.*, 280 F.R.D. at 276 ("Good
5 cause may be found where the need for expedited discovery, in consideration of
6 the administration of justice, outweighs the prejudice to the responding party.").

7 III. PLAINTIFF'S PROPOSED ORDER

8 In the management of related cases, Plaintiff observes many parties may be
9 unfamiliar with their respective rights and duties. In particular, not all ISPs may
10 be fully aware of their obligations and responsibilities under the Cable
11 Communications Act of 1984, 47 U.S.C. § 521, et seq. and The Stored
12 Communications Act, 18 U.S.C. § 2701, et seq.

13 Plaintiff would like to avoid complications and any unnecessary or
14 excessive burden on the courts or any party who may attempt to comply with a
15 subpoena in good faith. To that end, Plaintiff requests that the Court adopt an
16 order to govern the subpoenas issued in this case. Plaintiff believes such
17 subpoenas should be limited to subscriber identifying information and exclude
18 content which may be protected. Further, Plaintiff requests an order that
19 specifically outlines an ISP's duty to notify subscribers and provides an
20 opportunity for such subscribers to file a motion to quash.

21 Plaintiff submits with its motion a proposed form of order that provides
22 specific notice and reference to the obligations of an ISP and provides that notice
23 to subscribers may be accomplished through notice as outlined in the order or in
24 any other manner established by the ISP to comply with 47 U.S.C. §551(c)(2)(C).¹

25
26 ¹ Plaintiff's proposed order is substantially identical to the order
27 PLAINTIFF'S *EX PARTE* MOTION – Page 5
28 TO EXPEDITE DISCOVERY

1 Plaintiff believes that its proposed order, narrowing and focusing Plaintiff's
2 subpoena power and providing notice to parties of rights and duties, is in the
3 interest of efficiency and justice and requests that the Court adopt and issue the
4 proposed order or a similar order.

5 IV. CONCLUSION

6 For the foregoing reasons, Plaintiff respectfully requests the Court grant its
7 *Ex Parte* Motion to Expedite Discovery and enter an order allowing Plaintiff to
8 subpoena records from the ISPs for the identity of the account holder assigned to
9 each IP address identified as an infringing party in Exhibit 1 to the Complaint and
10 for such further information as may be needed to specifically identify the several
11 Doe Defendants.

12 DATED: March 22, 2013

13 Respectfully submitted,
